

Clinical Liaison Orientation

Accordance Community College

April 2025

Program Note

This template provides placeholders for topics to include when orienting clinical liaisons. It is the program's responsibility to add details and information specific to their program. The placeholders are not intended to be inclusive of all educational content. The content can be modified; however, the program-specific training includes:

- Purposes of the student rotation: minimum competencies, skills, behaviors**
 - Evaluation tools used by the program**
 - Criteria of evaluation for grading students**
 - Contact information for the program (regular and emergency)**
- 

Program Specific Information

General topics are provided as placeholders

**The program completes the appropriate
information in each area**
