Rules of the Road

- All participants are on mute.
- There are a few interactive moments built into this presentation. You will be asked to use the “questions” function.
- At the end of the presentation, there will be time for questions and comments. You can use the “questions” function for those questions and comments.
- Webinar is being recorded and will be made available at a later date on www.coaemsp.org.
Objectives

List the evaluation processes required by CAAHEP/CoAEMSP

Identify the evaluation tools available

Understand how to use the evaluation tools

Identify long term planning processes
Basic Assumptions

CAAHEP Standards

- II.B. Appropriateness of Goals and Learning Domains
- III.A.1. Resources – Type and Amount
- III.B.1.a. Program Director Responsibilities
- III.D. Resource Assessment
- IV.B.1. Outcomes Assessment

Faculty = individuals involved with any level of instruction with students (full-time, part-time, adjunct; didactic, lab, skills)

Website [www.coaemsp.org](http://www.coaemsp.org)
1. Faculty members, adjunct/skill instructors, and content experts should be evaluated with sufficient frequency to determine student reception and identify areas that require counseling or positive feedback.

2. Program Directors should observe and evaluate faculty members at least annually.

3. Evaluations should be reviewed with the individuals: document notes of the topics discussed and feedback and direction provided. These observations may become part of a professional development plan.

Tool(s) to use

- evaluation tool completed by the student of an individual instructor (developed by program or institution)
- evaluation tool completed by the PD of an individual instructor (developed by program or institution)
- annual performance appraisal, which includes the skills, knowledge and abilities of the instructor (developed by program or institution)
Clinical and Field Internship Evaluations

1. All clinical sites must be evaluated by each student.

2. Each capstone field internship preceptor must be evaluated by each student.

*Tool(s) to use*

- evaluation tool to evaluate the clinical site (developed by program)
- evaluation tool to evaluate the field preceptors on an individual basis (developed by program)
1. Evaluations should be distributed and collected at the end of each term.

2. A final course/program evaluation should be required once the capstone field internship is complete.

3. The Program Director should review the evaluations and compile a list of positives/issues using a course summary report format.

4. The course/program evaluations should be reviewed with the appropriate instructor(s).

5. The course/program evaluations and course summary report may be reviewed with the school leaders.
6. The course/program evaluations should be reviewed with the Program Medical Director.

7. Discuss any changes/revisions to the Program resulting from the analysis of the evaluations at a staff meeting and document the discussion in faculty meeting minutes.

8. Capture any other changes/revisions in writing and retain those documents.

Tool(s) to use
- evaluation tool to evaluate the specific course by each student at the end of each term or semester (developed by program or institution)
1. 100% of graduates and their employers must be surveyed using the CoAEMSP tools.

2. Record and report the return rate for both survey types.

3. Discuss the results with the faculty, Medical Director, and Advisory Committee.

1. Complete the CoAEMSP Resource Assessment Matrix annually and review the results with the faculty, the Medical Director, and the Advisory Committee.

Program Resource Survey Completed By Program Personnel

| Name of Program sponsor (School): | | Date: |
| Paramedic Program Number: the 600xxx number assigned by CoAEMSP | |

The purpose of this survey instrument is to evaluate our Program resources. The data will aid the Program in ongoing planning, appropriate change, and development of action plans to address deficiencies. Unless specified, all sections should be completed by program faculty, Medical Director(s), and Advisory Committee members.

INSTRUCTIONS: Consider each item separately and rate each item independently. Check the rating that indicates the extent you agree with each statement. Please do NOT skip a rating. If you do not know about a particular area, please check N/A. If you are not able to evaluate a particular area, please check N/A.

2. Consider completing a SWOT analysis with faculty and stakeholders: Strengths, Weaknesses, Opportunities, and Threats.
3. Review the three outcome thresholds required to be reported to the CoAEMSP with the faculty, Medical Director, and the Advisory Committee and develop a plan to improve outcomes if needed. These include: credentialing cognitive exam pass rates; retention; and positive placement (employment).

4. Evaluate clinical and field internship resources for adequacy of clinical and field contacts: numbers and types of patients and the types of procedures, skills.

**NOTE:** The "DATE(S) OF MEASURE" (Column D) is designed to autopopulate once the dates in Section 1 "FACULTY" have been completed and row heights may be manually adjusted to display all the text contained in cells.

Accredited programs must conduct Resource Assessment at least annually (Standard III.D) and are required to complete ALL columns of this matrix. Programs seeking a Letter of Review (LoR) are required to complete at least columns B, C, and D of this matrix (Purpose, Measurement System, and Dates of Measurement).

The PRS Student and PRS Personnel worksheets calculate a percentage for each question and a SUMMARY for each of the ten content areas. For each content area that receives a rating of LESS than 80%, the Program must summarize the results and complete an analysis (Column E) and develop an action plan (Column F). Programs may write additional Purpose statements and/or add Measurement Systems for resource(s). Programs are also responsible for internally addressing individual questions that do not meet the 80% cut score.

At a minimum, programs are required to use the survey items contained in the Student Resource Survey and the Program Personnel Resource Survey.

The Advisory Committee is involved in both assessing the resources and reviewing the results.
