TO: Sponsoring Organizations for the CoAEMSP  
CoAEMSP Board Members

FROM: Paul Berlin, MS, NRP, Chair, CoAEMSP Board of Directors  
George W Hatch, Jr., EdD, EMT-P, LP, Executive Director, CoAEMSP

RE: Highlights from the CoAEMSP Quarterly Board Meeting – August 6, 2021

The Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP) Board of Directors met via Zoom on August 6, 2021. The members of the CoAEMSP Board of Directors are dedicated and give a great deal of their talents to advancing the mission of the CoAEMSP and the education of future Paramedics. Each board member has stated that it has taken them two to three years to feel comfortable with the business of the board and to feel as though they are ramped up. The CoAEMSP is grateful for each board member’s dedication to the mission – to advance the quality of EMS education through accreditation.

The highlights from the meeting:

1. **Program Actions.** Reviewed 12 programs for initial accreditation, continuing accreditation, and progress reports.

2. **By the Numbers.** At the time of the board meeting there were **636 CAAHEP accredited** Paramedic programs and **87 programs** that hold the **CoAEMSP Letter of Review (LoR);** the LoR is the precursor to CAAHEP accreditation. For a current list of Paramedic programs, visit [https://www.caahep.org/Students/Find-a-Program.aspx](https://www.caahep.org/Students/Find-a-Program.aspx). In addition to these numbers, there are 12 programs seeking the Letter of Review and hold no status with CoAEMSP or CAAHEP.

3. **ACCREDITCON,** the annual conference / collaborative for advancing excellence through accreditation, was held virtually on June 2, 3 and 4. All the sessions are available on-demand through December 31, 2021. Attendance was more than 500 people, which is more than previous years. The conference in 2022 and 2023 will be held in Louisville. For more information, visit [www.accreditcon.org](http://www.accreditcon.org).

4. **Site Visits.** CoAEMSP continues conducting virtual site visits and plans to return to on-campus visits in early 2022.

5. **Audit.** Reviewed and discussed Chapter 8 Internal Control: Guidelines and Tool for the Audit Committee from the Association of International Certified Professional Accountants (AICPA) Audit Committee Toolkit: Not-for-Profit Entities. The Board approved the Internal Control Checklist.

6. **Policies and Procedures for CoAEMSP.** Approved a revised policy for record retention by the CoAEMSP.

7. **Election Results.** Directors’ elections occur every summer, approximately one-third of the board members positions are elected. Those (re)elected this year, with their term effective immediately:
   - ASA – Murray Kalish (re-elected)
   - NAEMSE – Jeff McDonald (re-elected)
   - NAEMSP – Bridgette Svancarek (re-elected)
   - NAEEMT – Rick Ellis (re-elected)
   - NREMT – Joseph Mistovich (re-elected)
   - Public – Hugh Bonner (re-elected)
8. **CAAHEP Standards Revision.** The CoAEMSP Board approved the preliminary draft of the CAAHEP Standards for Paramedic educational programs, which is undertaken every 5-10 years. The next step is to send the preliminary draft to each of the 12 CoAEMSP’s sponsors for input. Their respective input is due October 15.

The CAAHEP Standards are the minimum standards of quality used in accrediting programs that prepare individuals to enter the Emergency Medical Services professions. Standards are the minimum requirements to which an accredited program is held accountable. Each of the communities of interest, including each sponsoring organization of CoAEMSP, the programs, and the public can review and comment on the revisions.

In addition to collecting feedback from each of the sponsors, listening sessions will be held to collect public feedback; they are September 22 and October 8. Visit [www.coaemsp.org](http://www.coaemsp.org) for more information.

Upon collection of the feedback, the CoAEMSP will incorporate suggestions and forward it to the CAAHEP Standards Committee for review and feedback. There are several more steps in the revision process.

9. **AEMT Accreditation.** The CoAEMSP is studying the feasibility of providing accreditation services to AEMT educational programs in accordance with the recommendation made in the National EMS Scope of Practice (2019). Accreditation of AEMT educational programs would be voluntary; however, there may be states that require accreditation of the AEMT programs. The next steps include completing a survey of the State Office of EMS Officials, providing a public comment period for programs, then presenting findings in open forum to the entire national EMS community seeking input on AEMT programmatic accreditation by CAAHEP. The study has been placed on pause due to COVID-19 and will reconvene in 2021.

The updated timeline for providing AEMT accreditation services *(proposed dates are subject to change based on the continuing impact of COVID-19 as conditions warrant)*:

- **March 1, 2022**  Present findings in open forum to entire national EMS community seeking input on AEMT accreditation (close of comments June 15, 2022)
- **May**  AEMT presentation during ACCREDITCON
  Hold an open forum for comments (close of comments June 15, 2022)
- **July**  AEMT Planning Subcommittee meets prior to the Board meeting and include Site Visit Subcommittee chair and staff liaison. (AEMT Planning Subcommittee consists of committee chairs from Budget/Finance, Policy, QI/AR, Interpretations, Executive Committee, Physician, EMS Program Directors, and NASEMSO.)
- **February 2023**  Recommend to Board to implement AEMT accreditation or to not implement for a January 2024 start date
  Upon Board approval, announce decision and disseminate accreditation materials once developed
  Completed AEMT materials for review and presentation to the Board by the respective subcommittees
- **April**  AEMT materials available
- **May**  Upon Board approval of AEMT accreditation launch, hold AEMT accreditation workshop
- **January 2024**  Upon Board approval from February 2023 meeting, AEMT accreditation launch (January 1, 2024)
10. **Data** In collaboration with the NREMT, collected data via the CoAEMSP Annual Report to identify characteristics of Paramedic programs, including size, structure, and geographic distribution for programs graduating cohorts in 2018. The results will be shared with the public later.

11. **Annual Report.** Each May programs that are accredited by CAAHEP or hold the Letter of Review by the CoAEMSP are required to submit an annual report. Following is an analysis from the data collected this year, which reflects those who graduated in 2019.

**690 Programs submitted the 2019 Annual Report**
- 445 Continuing Accreditation Programs
- 189 Initial Accreditation Programs
- 53 Letter of Review Programs
- 2 Inactive Programs
- 1 Probationary Program

**Program Size by Numbers Reported**
- 50 Programs with No Graduates for 2019
- 17,457 Total Students Enrolled in 2019
- 13,884 Total Graduates in 2019

**504 Programs Met ALL Outcomes in 2019**
- 149 Programs Below on ONE Outcome in 2019
- 32 Programs Below on TWO Outcomes in 2019
- 5 Programs Below on THREE Outcomes in 2019

**Written Exam Outcome: 73 Programs Below 70% Outcome**
- Total Graduates Attempting: 13,422
- Total Graduates Passing: 12,002
- Total Passing 1st Attempt: 10,174

**Retention Outcome: 129 Programs Below 70% Outcome**
- Total Attrition: 3,573

**Positive (Job) Placement Outcomes: 29 Programs Below 70% Outcome**
- Total Graduates Employed: 12,346
- Cont Ed, Military, Not Employed: 416
- Total Graduates Positively Placed: 12,762

12. **Student Minimum Competency (SMC),** formerly referred to as Appendix G, are the minimum expectations for student formative experiences and minimum expectations by which the program must ensure minimum entry-level competency. The recommended numbers were approved by the CoAEMSP; the NREMT will adopt the same recommendations. The SMC will be reviewed every four (4) years, following the NREMT practice analysis, to ensure the numbers are appropriate. The SMC recommendations will be released on September 22.

13. **Assistant Director of Accreditation Services.** On August 1, 2021, the CoAEMSP welcomed its new Assistant Director of Accreditation Services. Dr. Mike Miller was hired after an extensive national search. Dr. Miller joins the CoAEMSP after working Creighton University since 2002, most recently as the Director of EMS Education and Associate Professor. He also served on the CoAEMSP Board of Directors and as a site visitor.

14. **Virtual Learning.** CoAEMSP continues hosting virtual accreditation workshops and monthly webinars. Each of the virtual accreditation workshops is well attended.
15. **Next Meetings:**

**2021:** November 5  web meeting

**2022:** February 3-4-5  Austin TX
      May 6  web meeting
      July 28-29-30  Albuquerque NM
      November 4  web meeting

**Attachment:**

*CAAHEP Standards & Guidelines for the Educational Programs in the EMS Professions* – preliminary draft
Communication Protocols for the CoAEMSP

*The Board has adopted protocols that permit more predictable, consistent, and deliberate communications with sponsors about the work of the Board. CoAEMSP provides official updates via the Board Highlights to sponsors within 30 days of each Board meeting.*

**CAAHEP** = Commission on Accreditation of Allied Health Education Programs  
**CoAEMSP** = Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions

The **Mission Statement of the CoAEMSP**

The mission of the CoAEMSP is to advance the quality of EMS education through accreditation.

The **Vision Statement of the CoAEMSP**

CoAEMSP is recognized as the leader in evidence-based standards for accreditation.

The **Core Values of the CoAEMSP: CLARITY**

- **Commitment**: Dedication of time, talent, and resources toward the achievement of CoAEMSP’s mission.  
- **Leadership**: Inspiring others to advance the vision and goals of the CoAEMSP.  
- **Accountability**: Advancing the mission of the CoAEMSP with integrity, honesty, professionalism and high ethical standards.  
- **Respect**: Honoring the perspective of any individual or organization.  
- **Integrated**: Carrying out the work of the CoAEMSP in collaboration with EMS stakeholders.  
- **Quality**: Consistently meeting or exceeding established standards and expectations in all CoAEMSP activities.

The **Goals of the CoAEMSP**

- **GOAL #1**: To conduct scholarly inquiry of relevant topics related to accreditation and EMS Education.  
- **GOAL #2**: Foster diverse instructional methodologies.  
- **GOAL #3**: Explore expanding scope of quality assurance/improvement activities to EMT and AEMT and internationally.  
- **GOAL #4**: Continue to strengthen the engagement and effectiveness of the CoAEMSP Board of Directors.

**CAAHEP** = Commission on Accreditation of Allied Health Education Programs.  
CAAHEP is a programmatic postsecondary accrediting agency recognized by the Council for Higher Education Accreditation (CHEA) and carries out its accrediting activities in cooperation with its Committees on Accreditation. CAAHEP currently accredits over 2000 educational programs in 31 health science professions. [caahep.org]
Standards and Guidelines
for the Accreditation of Educational Programs in
the Emergency Medical Services Professions

Developed by
Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions
( CoAEMSP )

Endorsed by
American Academy of Pediatrics
American Ambulance Association
American College of Cardiology
American College of Emergency Physicians
American College of Surgeons
American Society of Anesthesiologists
International Association of Fire Chiefs
International Association of Fire Fighters
National Association of Emergency Medical Services Physicians
National Association of Emergency Medical Services Educators
National Association of Emergency Medical Technicians
National Registry of Emergency Medical Technicians

and

Approved by the
Commission on Accreditation of Allied Health Education Programs

The Commission on Accreditation of Allied Health Education Programs (CAAHEP) accredits programs upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).

These accreditation Standards are the minimum standards of quality used in accrediting programs that prepare individuals to enter the Emergency Medical Services profession. Standards are the minimum requirements to which an accredited program is held accountable. Guidelines are descriptions, examples, or recommendations that elaborate on the Standards. Guidelines are not required but can assist with interpretation of the Standards.

Standards are printed in regular typeface in outline form. Guidelines are printed in italic typeface.

Preamble

The Commission on Accreditation of Allied Health Education Programs (CAAHEP), Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions, and American Ambulance Association, American Academy of Pediatrics, American Ambulance Association, American College of Cardiology, American College of Emergency Physicians, American College of Surgeons, American Society of Anesthesiologists, International Association of Fire Chiefs, International Association of Fire Fighters, National Association of
Emergency Medical Services Physicians, National Association of Emergency Medical Services Educators, National Association of Emergency Medical Technicians, and National Registry of Emergency Medical Technicians cooperate to establish, maintain and promote appropriate standards of quality for educational programs in the Emergency Medical Services and to provide recognition for educational programs that meet or exceed the minimum standards outlined in these accreditation Standards and Guidelines for the Accreditation of Educational Programs. CAAHEP encourages innovation and quality education programs throughout the CAAHEP accreditation process, consistent with the CAAHEP policy on institutional autonomy. These Standards and Guidelines are designed to ensure the integrity of the CAAHEP accreditation process. Directories of accredited programs are published for the information of students, employers, educational institutions and organizations, credentialing bodies, and the public.

These Standards and Guidelines are to be used for the development, evaluation, and self-analysis of Emergency Medical Services programs. Site visit teams assist in the evaluation of a program's compliance with the accreditation standards.

Description of the Profession

The Emergency Medical Services Professions include four levels: Paramedic, Advanced EMT, EMT, and Emergency Medical Responder. CAAHEP accredits educational programs at the Paramedic and Advanced EMT levels. Programs at the EMT and Emergency Medical Responder levels may be included as exit points in CAAHEP accredited Paramedic and Advanced EMT programs. “Stand-alone” EMT and Emergency Medical Responder programs may be reviewed by the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).

Paramedic

The Paramedic is an allied health professional whose primary focus is to provide advanced emergency medical care for critical and emergent patients who access the emergency medical system. This individual possesses the complex knowledge and skills necessary to provide patient care and transportation. Paramedics function as part of a comprehensive EMS response, under medical oversight. Paramedics perform interventions with the basic and advanced equipment typically found on an ambulance. The Paramedic is a link from the scene into the health care system.

Advanced Emergency Medical Technician

The primary focus of the Advanced Emergency Medical Technician is to provide basic and limited advanced emergency medical care and transportation for critical and emergent patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide patient care and transportation. Advanced Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight. Advanced Emergency Medical Technicians perform interventions with the basic and advanced equipment typically found on an ambulance. The Advanced Emergency Medical Technician is a link from the scene to the emergency health care system.

Emergency Medical Technician

The primary focus of the Emergency Medical Technician is to provide basic emergency medical care and transportation for critical and emergent patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide patient care and transportation. Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight. Emergency Medical Technicians perform interventions with the basic equipment typically found on an ambulance. The Emergency Medical Technician is a link from the scene to the emergency health care system.

Emergency Medical Responder

The primary focus of the Emergency Medical Responder is to initiate immediate lifesaving care to critical patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary
to provide lifesaving interventions while awaiting additional EMS response and to assist higher level personnel at the scene and during transport. Emergency Medical Responders function as part of a comprehensive EMS response, under medical oversight. Emergency Medical Responders perform basic interventions with minimal equipment.

---

**STANDARD I. SPONSORSHIP**

I. Sponsorship
   A. Program Sponsor
      A program sponsor must be at least one of the following:
      1. A post-secondary academic institution accredited by an institutional accrediting agency that is recognized by the U.S. Department of Education and must be authorized under applicable law or other acceptable authority to provide a post-secondary program, which awards a minimum of a certificate at the completion of the program.
      2. A post-secondary academic institution outside of the United States and its territories that is authorized under applicable law or other acceptable authority to provide a post-secondary program, which awards a minimum of certificate or equivalent at the completion of the program.
      3. A hospital, clinic or medical center accredited by a healthcare accrediting agency or equivalent that is recognized by the U.S. Department of Health and Human Services and authorized under applicable law to provide healthcare and authorized under applicable law to provide the post-secondary program, which awards a minimum of a certificate at the completion of the program.
      4. A branch of the United States Armed Forces or a federal, state, or local governmental or municipal agency which awards a minimum of a certificate at the completion of the program.
      5. A consortium, which is a group made up of two or more members that operate an educational program through a written agreement that outlines the expectations and responsibilities of each of the partners. At least one of the consortium partners must meet the requirements of a program sponsor set forth in I.A.1.- I.A.5.

Consortium does not refer to clinical affiliation agreements with the program sponsor.

*For a distance education program, the location of program is the mailing address of the sponsor.*

B. Responsibilities of Program Sponsor
   The program sponsor must:
   1. Ensure that the program meets the Standards;
   2. Award academic credit for the program or have academic credit accessible to students through an articulation agreement(s); and
   3. Have a preparedness plan in place that assures continuity of education services in the event of an unanticipated interruption.

*Examples of unanticipated interruptions may include unexpected departure of key personnel, natural disaster, public health crisis, fire, flood, power failure, failure of information technology services, or other events that may lead to inaccessibility of educational services.*
II. Program Goals

A. Program Goals and Minimum Expectations

The program must have the following minimum expectations statement:

- **Paramedic**: “To prepare Paramedics who are competent in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains to enter the profession.”

- **Advanced Emergency Medical Technician**: “To prepare Advanced Emergency Medical Technicians who are competent in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains to enter the profession.”

Programs that adopt educational goals beyond the minimum expectations statement must provide evidence that all students have achieved those goals prior to entry into the field.

Program goals must be compatible with the mission of the sponsoring institution(s), the expectations of the communities of interest, and accepted standards of roles and functions of an emergency medical services professional. Goals are based upon the substantiated needs of health care providers and employers, and the educational needs of the students served by the educational program. Program goals must be written referencing one or more of the learning domains.

The program must assess its goals at least annually and respond to changes in the needs and expectations of its communities of interest.

*In this Standard, “field” refers to the Profession.*

B. Program Advisory Committee

The program advisory committee must include at least one representative of each community of interest and must meet annually. Communities of interest served by the program include, but are not limited to, students, graduates, faculty members, sponsor employers, physicians, clinical and field internship representatives, and the public.

The program advisory committee advises the program regarding revisions to curriculum and program goals based on the changing needs and expectations of the program’s communities of interest, and an assessment of program effectiveness, including the outcomes specified in these Standards.

*It is recommended that the chair of the advisory committee be from one of the following groups: graduates, employers, physicians, clinical and field internship representatives, or public.*

*Program advisory committee meetings may be conducted using synchronous electronic means.*
III. Resources

A. Resources
   1. Type and Amount
      Program resources must be sufficient to ensure the achievement of the program’s goals and outcomes. Resources must include, but are not limited to:
      a. Faculty;
      b. Administrative and support staff;
      c. Curriculum;
      d. Finances;
      e. Faculty and staff workspace;
      f. Space for confidential interactions;
      g. Classroom and laboratory (physical or virtual);
      h. Ancillary student facilities;
      i. Clinical affiliates
      j. Field affiliates;
      k. Equipment;
      l. Supplies;
      m. Information technology;
      n. Instructional materials; and
      o. Support for faculty professional development.

2. Hospital/Clinical, Field Experience, and Capstone Field Internship Affiliations
   For all affiliations, students must have access to adequate numbers of patients, proportionally distributed by age-range, chief complaint and interventions in the delivery of emergency care appropriate to the level of the Emergency Medical Services Profession(s) for which training is being offered.

   The clinical/field experience and capstone field internship resources must ensure exposure to, and assessment and management of the following patients and conditions: adult trauma and medical emergencies; pediatric trauma and medical emergencies including assessment and management; and geriatric trauma and medical emergencies.

B. Personnel
   The sponsor must appoint sufficient faculty and staff with the necessary qualifications to perform the functions identified in documented job descriptions and to achieve the program’s stated goals and outcomes.

   1. Program Director
      a. Responsibilities
         The program director must be responsible for all aspects of the program, including but not limited to:
         1) Administration, organization, supervision of the program;
         2) Continuous quality review and improvement of the program;
         3) Academic oversight, including curriculum planning and development;
         4) Orientation/training and supervision of clinical and capstone field internship preceptors.
b. Qualifications
   The program director qualifications must include:
   1) A minimum of a Bachelor’s degree or the equivalent to direct a Paramedic program and a
      minimum of an Associate’s degree to direct an Advanced Emergency Medical Technician
      program from an accredited institution of higher education;
   2) Documented education or experience in instructional methodology;
   3) Academic training and experience equivalent to that of a paramedic;
   4) Experience in the delivery of prehospital emergency care;
   5) Knowledgeable about the current versions of the National EMS Scope of Practice and National
      EMS Education Standards, and about evidenced-informed clinical practice.

   It is recommended that the Program Director have a minimum of a Master’s degree.

   It is recommended that the degree be in a health-related profession, EMS, or education.

   It is recommended that the program director is a full-time position.

2. Medical Director
   a. Responsibilities
      The medical director must
      1) review and approve (rationale) the educational content of the program to include didactic,
         laboratory, clinical experience, field experience, and capstone field to ensure it meets current
         standards of medical practice;
      2) review and approve the required minimum numbers for each of the required patient contacts
         and procedures listed in these Standards;
      3) review and approve the instruments and processes used to evaluate students in didactic,
         laboratory, clinical, field experience, and capstone field internship;
      4) review the progress of each student throughout the program, and assist in the determination
         of appropriate corrective measures, when necessary;

         It is recommended that corrective measures occur in the cases of adverse outcomes, failing
         academic performance, and disciplinary action.

      5) ensure the competence of each graduate of the program in the cognitive, psychomotor, and
         affective domains;
      6) engage in cooperative involvement with the program director;
      7) ensure the effectiveness and quality of any Medical Director responsibilities delegated to an
         Associate or Assistant Medical Director.

      It is recommended that the Medical Director interaction be in a variety of settings, such as lecture,
      laboratory, clinical, capstone field internship. Interaction may be by synchronous electronic methods.

   b. Qualifications
      The medical director must
      1) be a physician currently licensed and board certified or equivalent;
2) have adequate training or experience in the delivery of out-of-hospital emergency care, including the proper care and transport of patients, medical direction, and quality improvement in out-of-hospital care;

3) have the requisite knowledge and skills to advise the program leadership about the clinical/academic aspects of the program;

4) be knowledgeable about the education of the Emergency Medical Services Professions, including professional, legislative and regulatory issues regarding the education of the Emergency Medical Services Professions; and,

5) be knowledgeable in teaching the subjects assigned, when applicable.

It is recommended that the Medical Director be board certified in EMS Medicine or Emergency Medicine.

3. Associate Medical Director:
   a. Responsibilities
      1) Fulfill responsibilities as delegated by the program Medical Director.

   b. Qualifications
      The Associate Medical Director must:
      1) be a physician currently licensed and authorized to practice in the state in which assigned program activities with experience and current knowledge of emergency care of acutely ill and injured patients;

      2) have adequate training or experience in the delivery of out-of-hospital emergency care, including the proper care and transport of patients, medical direction, and quality improvement in out-of-hospital care; and,

      3) be knowledgeable about the education of the Emergency Medical Services Professions, including professional, legislative and regulatory issues regarding the education of the Emergency Medical Services Professions.

4. Assistant Medical Director
   When the program Medical Director or Associate Medical Director cannot legally provide supervision for out-of-state location(s) of the educational activities of the program, the sponsor must appoint an Assistant Medical Director.

   a. Responsibilities
      1) Medical supervision and oversight of students participating in clinical rotations, field experience and/or capstone field internship.

   b. Qualifications
      The Assistant Medical Director must:
      1) be a physician currently licensed and authorized to practice in the jurisdiction of the location of the student(s) with experience and current knowledge of emergency care of acutely ill and injured patients;

      2) have adequate training or experience in the delivery of out-of-hospital emergency care, including the proper care and transport of patients, medical direction, and quality improvement in out-of-hospital care;

      3) be an active member of the local medical community and participate in professional activities related to out-of-hospital care;
4) be knowledgeable about the education of the Emergency Medical Services Professions, including professional, legislative and regulatory issues regarding the education of the Emergency Medical Services Professions.

In certain circumstances, such as an out of state satellite location, the program Medical Director may delegate program oversight responsibilities to the Associate or Assistant Medical Director under the supervision of the program Medical Director.

5. Faculty/Instructional Staff
   a. Responsibilities
      For all didactic, laboratory, and clinical instruction to which a student is assigned, there must be qualified individual(s) clearly designated by the program to provide instruction, supervision, and timely assessments of the student’s progress in meeting program requirements.

   b. Qualifications
      Faculty/instructional staff must be effective in teaching and knowledgeable in subject matter as documented by appropriate professional credential(s)/certification(s), education, and experience in the designated content area.

For most programs, it is recommended a faculty member assist in teaching and/or clinical coordination in addition to the program director. It is recommended that the faculty member be certified by a nationally recognized certifying organization at an equal or higher level of professional training than the Emergency Medical Services Profession(s) for which training is being offered.

6. Lead Instructor
   When the Program Director delegates specified responsibilities to a lead instructor.

   a. Responsibilities
      The Lead Instructor must:
      1) Perform duties assigned under the direction and delegation of the Program Director.

      The Lead Instructor duties may include teaching paramedic or AEMT course(s) and/or assisting in coordination of the didactic, lab, clinical and/or capstone field internship instruction.

   b. Qualifications
      The Lead Instructor must possess:
      1) a minimum of an Associate degree;
      2) professional healthcare credential(s);
      3) experience in emergency medicine / prehospital care;
      4) knowledge of instructional methods; and,
      5) teaching experience to deliver content, skills instruction, and remediation.

      It is recommended that the Lead Instructors have a Bachelor’s degree.

      The Lead Instructor role may also include providing leadership for course coordination and supervision of adjunct faculty/instructors.

      The program director may serve as the lead instructor.

7. Clinical Coordinator
   a. Responsibilities
      The clinical coordinator must:
      1) coordinate clinical education;
2) ensure documentation of the evaluation and progression of clinical performance;
3) ensure orientation to the program’s requirements of the personnel who supervise or instruct students at clinical and capstone field internship sites;
4) coordinate the assignment of students to clinical and filed internship sites.

b. Qualifications
The clinical coordinator must:
1) have documented experience in emergency medical services;
2) possess knowledge of the curriculum; and,
3) possess knowledge about the program’s evaluation of student learning and performance.

The Clinical Coordinator can be a faculty member with other teaching responsibilities or assignments.

Depending on the program size and staffing structure, the same individual may fill the role and responsibilities of Program Director and/or Lead Instructor and/or Clinical Coordinator.

C. Curriculum
The curriculum content must ensure that the program goals are achieved.
1. Instruction must be based on clearly written course syllabi that include course description, course objectives, methods of evaluation, topic outline, and competencies required for graduation/program completion.
2. Instruction must be delivered in an appropriate sequence of classroom, laboratory, clinical and activities.
3. The program must demonstrate that the curriculum offered meets or exceeds the content and competency of the latest edition of the National EMS Education Standards listed in Appendix B of these Standards.
4. The program must set and require minimum student competencies for each of the required patients and conditions listed in these Standards, and at least annually evaluate and document that the established program minimums are adequate to achieve entry-level competency.
5. The capstone field internship must provide the student with an opportunity to serve as team leader in a variety of pre-hospital advanced life support emergency medical situations.

It is recommended that programs establish an on-time graduation date for each cohort and a maximum amount of time to complete all components of the education program.

CAAHEP supports and encourages innovation in the development and delivery of the curriculum.

D. Resource Assessment
The program must, at least annually, assess the appropriateness and effectiveness of the resources described in these Standards. The results of the resource assessment must be the basis for ongoing planning and change. An action plan must be developed when needed improvements are identified in the program resources. Implementation of the action plan must be documented and results measured by ongoing resource assessment.
IV. Student and Graduate Evaluation/Assessment

A. Student Evaluation

1. Frequency and purpose

Evaluation of students must be conducted on a recurrent basis and with sufficient frequency to provide both the students and program faculty with valid and timely indications of the students’ progress toward and achievement of the curriculum competencies in the required learning domains.

Achievement of the program competencies required for graduation must be assessed by criterion-referenced, summative, comprehensive final evaluations in all learning domains at the completion of all components of the program.

*Validity means that the evaluation methods chosen are consistent with the learning and performance objectives being tested.*

2. Documentation

a. Student evaluations must be maintained in sufficient detail to document learning progress and achievements.

b. The program must track and document that each student successfully meets each of the program established student minimum competency requirements according to patient ages; conditions, pathologies, or complaints; motor skills; and management in lab, clinical, field experience, and field internship.

B. Outcomes

The program must meet the established outcomes thresholds.

1. Assessment

The program must periodically assess its effectiveness in achieving established outcomes. The results of this assessment must be reflected in the review and timely revision of the program.

Established outcomes and assessments must include but are not limited to national or state credentialing examination(s) performance, programmatic retention, graduate satisfaction, employer satisfaction, and placement in full or part-time employment or volunteering in the profession or in a related profession. The program must meet the outcomes assessment thresholds established by the CoAEMSP.

A related profession is one in which the individual is using cognitive, psychomotor, and affective competencies acquired in the educational program.

Graduates pursuing academic education related to progressing in health professions or serving in the military may be counted as placed.

*It is recommended that a national certification examination program be accredited by the National Commission for Certifying Agencies (NCCA), American National Standards Institute (ANSI), or under International Organization for Standardization (ISO).*

*Results from an alternative examination may be accepted as an outcome, if designated as equivalent by the organization whose credentialing examination is so accredited.*
2. Reporting
At least annually, the program must submit to the CoAEMSP the program goal(s), outcomes assessment results, and an analysis of the results.

If established outcomes thresholds are not met, the program must participate in a dialogue with and submit an action plan to the CoAEMSP that responds to the identified deficiency(ies). The action plan must include an analysis of any deficiencies, corrective steps, and timeline for implementation. The program must assess the effectiveness of the corrective steps.

---

## STANDARD V. FAIR PRACTICES

### V. Fair Practices

#### A. Publications and Disclosure

1. Announcements, catalogs, publications, advertising, and websites must accurately reflect the program offered.

2. At least the following must be made known to all applicants and students
   a. Sponsor's institutional and programmatic accreditation status;
   b. Name, and website address of CAAHEP;
   c. Admissions policies and practices;
   d. Technical standards;
   e. Occupational risks;
   f. Policies on advanced placement, transfer of credits, and credits for experiential learning;
   g. Number of credits required for completion of the program;
   h. Availability of articulation agreements for transfer of credits;
   i. Tuition/fees and other costs required to complete the program;
   j. Policies and processes for withdrawal and for refunds of tuition/fees; and,
   k. Policies and processes for assignment of clinical experiences.

3. At least the following must be made known to all students
   a. Academic calendar;
   b. Student grievance procedure;
   c. Appeals process;
   d. Criteria for successful completion of each segment of the curriculum and for graduation; and
   e. Policies by which students may perform clinical work while enrolled in the program.

4. The sponsor must maintain and make accessible to the public on its website a current and consistent summary of student/graduate achievement that includes one or more of these program outcomes: national or state credentialing examination(s), programmatic retention, and placement in full or part-time employment or volunteering in the profession or a related profession as established by the CoAEMSP.

*It is recommended that the sponsor develop a suitable means of communicating to the communities of interest the achievement of students/graduates (e.g., through a website or electronic or printed documents).*

#### B. Lawful and Non-discriminatory Practices

All activities associated with the program, including student and faculty recruitment, student admission, and faculty employment practices, must be non-discriminatory and in accord with federal and state statutes, rules, and regulations. There must be a faculty grievance procedure made known to all paid faculty.
A program conducting educational activities in other State(s) must provide documentation to CoAEMSP that the program has successfully informed the state Office of EMS that the program has enrolled students in that state.

C. Safeguards
The health and safety of patients/clients, students, faculty, and other participants associated with the educational activities of the students must be adequately safeguarded. Emergency medical services students must be readily identifiable as students.

All activities required in the program must be educational and students must not be substituted for staff.

D. Student Records
Grades and credits for courses must be recorded on the student transcript and permanently maintained by the program sponsor in an accessible and secure location. Students and graduates must be given direction on how to access their records. Records must be maintained for student admission, advisement, and counseling while the student is enrolled in the program.

E. Substantive Change
The sponsor must report substantive change(s) as described in Appendix A to the CAAHEP/CoAEMSP in a timely manner. Additional substantive changes to be reported to CoAEMSP within the time limits prescribed include:

1. Change in sponsorship
2. Change in location
3. Addition of a satellite location
4. Addition of an alternate location
5. Addition of a distance learning program

F. Agreements
There must be a formal affiliation agreement or memorandum of understanding between the program sponsor and all other entities that participate in the education of the students describing the relationship, roles, and responsibilities of the program sponsor and that entity.
