Confidential

Conflict of Interest

a real or perceived

site visitor is employed or lives in the same state as the Program

individuals have a close (positive or negative) personal, professional, academic or business relationship

acceptance of compensation or gifts related to the visitation

Site Visitors

Who are they?

Paramedic educator

Physician

Dean

How are they qualified?

meet *Standards* requirements

successfully complete the Site
Visitor Workshop

complete continuing education
sessions

QA reports are positive

A dark blue silhouette map of the United States, including Alaska and Hawaii, with white outlines of state boundaries. Each state is labeled with its two-letter abbreviation in white capital letters. The text "Expect someone from the State Office of EMS to observe the site visit" is overlaid in the center in a large, white, sans-serif font.

“Our site visit team was incredible, both in their professional knowledge of the ‘business’ of EMS education, but extremely helpful in suggesting best practices and making the program stronger.”

Organizing Documents

CAAHEP ACCREDITATION SITE VISIT
A Program Director's Guide:
Organizing the Documents for the Site Visit by Standard

The Initial or Continuing Self-Study Report has been submitted, and the site visit is scheduled. You are eagerly anticipating the site visitors, including a Paramedic educator and a physician involved in EMS education or two Paramedic educators. (Periodically, additional site visitors may be on the team.) You want to be well prepared, so where do you start?

Effective preparation for the site visit will facilitate the review, ensure that your Program is well represented by providing documentation of the Program's processes, answer site visitor questions, and reduce your stress level. Having all potential documents available for review also demonstrates the degree of organization of the Program. Whether this is your first site visit or a seasoned veteran, the following checklist will assist you with your preparations.

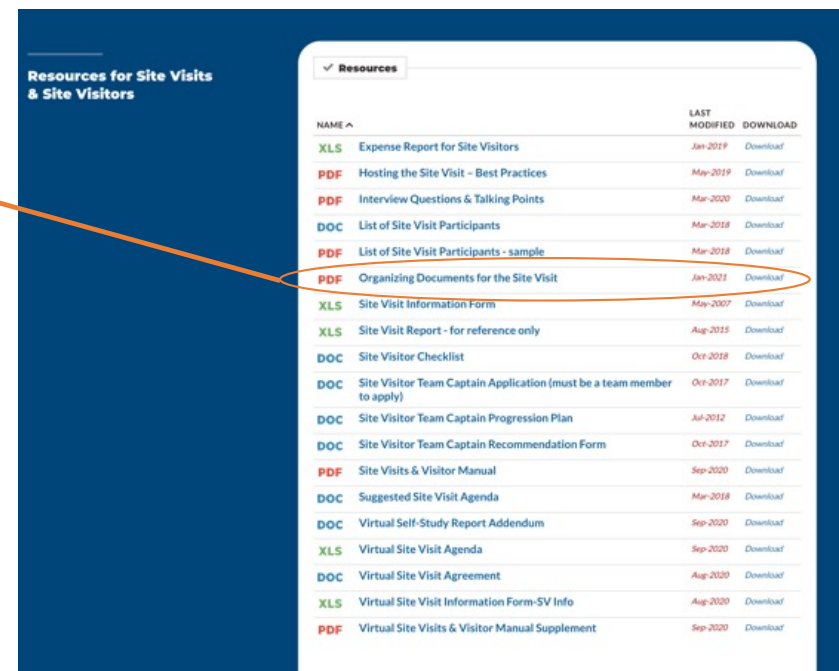

The following pages are a list of documents the Program must make available for the site visit, **all organized by the Standard Reference** (i.e., I.L.A., or III.C.2., etc.). These documents are in addition to documents identified in the Executive Analysis (EA). There are two primary methods of organizing the materials: either in 1) a file box or crate with labeled hanging file folders or 2) electronic format. Either way is acceptable for the residential/in-person site visit. The electronic format is used for the virtual site visit. For the residential/in-person site visit, the documentation remains available in the private conference room; for the virtual site visit, the documentation is available in the CoAEMSP-established ShareFile folder. Some standards will require several years of data, such as summary tracking documentation for graduated cohorts. In these cases, you will need to label each year with a separate divider or folder. Additionally, site visitors will pull student files at random for review and be prepared to provide additional examples if requested.

This document is the list of required documentation. Many of the accreditation standards will be verified through conversations and interviews with different people during the site visit.

If items were provided in the Self-Study Report, then **it is not necessary to provide another copy**. If the document was **not** supplied with the original submission of the Self-Study Report and is noted in the EA, then provide it for the site visit. *The file structure of how a program will organize electronic files is located on the final pages of this document.*

Once you have organized the files, have another staff member review the contents against the checklist. Are all the requested materials present and current? Are the copies legible? Do the materials address the 'evidence' column in the Site Visit Report? If you have not already done so, you can download an example of the Site Visit Report at http://www.coaemsp.org/Site_Visits_Visitors.htm. Ensure that your key faculty members are familiar with the documents on hand and can answer all questions in their area of responsibility.

You should now be ready for the site visit, so relax and engage the site visitors in dialog about your Program!
